SPORTING NEWS

NO DEAD BALLS THIS SEASON.
There are trials in all trades, but why baseball managers will have little if any opportunity of working off bad balls on opposing batters in the American association at least this season. At the last meeting of the league held in Chicago a rule was passed which requires each home club at the beginning of every game to provide the umpire with eighteen new balls. The umpire will also be provided with a catched, and will keep the balls in the value, using them on occasion requires. If a ball is knocked over the fence it is out of commission for the balance of the game, and a new one will be taken from the supply of eighteen. Under the old rule a manager could throw out any ball he desired, and as the opposing players seldom looked at them closely, often balls, which in baseball parlance were "dead" would be worked off. This rule will be done away with by the new regulation.

NOVILY BRED FILLY.
Cleveland, Ohio, April 5.—Lou Dillon, the world's champion trotter, failed a pretty boy filly today at Billings' private sale of the Glenview track. The filly is John A. McKernan's (24%), and has a record of 1:58 1/2, prompting an average speed inheritance of 54.1/2 from sire and compensating that of any other ever put here into this world.

FOOTBALL.
City league meeting tonight at the Alberta at 8 o'clock.

All St. John's club has chosen blue and white for club colors for this year.

Twelve clubs have already been organized at Calgary.

Calgary's city league will be divided into two sections—senior and intermediate. There are six teams in each section.

Every player on the Hillman team is an Englishman right out from 'em.

Calgary's senior teams are: Canadians, Blue Brigade, Lebeaux, Shamers, Hillburts, and the city team.

Queen's Avenue Presbyterians have not yet been heard from with reference to a city league team. A couple of weeks ago they declined to have players play for a winning proposition.

The hockeyists found six teams too many for good sports in their circle league and the football league promoters should not worry if only four clubs enter the pickup chasers' organization.

Stettler will have a team this year for the provincial league.

QUOTE.

About the only out-door sporting association at Calgary that has not lined up for organization purposes to date is the golf club. Last night the question had their annual conference. Officers were elected, and a program outlined that indicates that this sport is due to have a good run in that city during 1929.

The big event for the season will be tournament, which will commence on Dominion Day and last three days with a banquet on the final night.

Edmonton's golfers, however, need not get excited over the proposed tournament. By special resolution it was decided that the capital talent being ignored when the invitations to the tournament are being sent out, Chisholm will also be overlooked along with Edmonton.

A fine lot of sportsmen these Calgary golfers must be for sure.

Manager Thorne has arranged show exhibition games, for April 26, 28 and

and 30. One-day stands in all the cost can profitably handle with the Calgary team.

From Agent Laddie of Calgary claims Manager Thorne a few days ago turned down an offer of \$750 for Fisher Averill. With a dot between the two first figures the paragraph might pass for gossip.

RACE MEET IN MACELOO.

Maceloo, April 5.—At a recent meeting of the Maceloo Agriculture society, it was decided to hold this year's show and race meeting some time during August. Already there is an excellent prize list in all classes, and it is expected that this meeting will be without a doubt the most successful ever attempted.

A big feature of the racing events in the Alberta club's race, which for which closed a year ago. All bets in the race have to be to Alberta bred; the entries number upwards of twenty-five. The race will be the most valuable one ever run at Maceloo.

In addition there will be a number of other races, among which may be mentioned three races named after the proprietors of the three leading hotels in Maceloo, the money in each race being given by the different proprietors.

Race For Hidden Passes.

Passes ridden under saddle instead of driven to colts will have opportunities to win some cash for their owners during the "hidden passes" meeting that the Columbia Driving Park company will give next September. During the week following the regular Columbia Grand Circuit speed festival.

Secretary Harry Shepard announced recently that the directors have decided to appropriate \$5,700 that will be completed by by passers, under saddle. Racing of this style has not been seen in years, and it will come as an innovation to the present generation of racegoers.

There'll be an "under-saddle" going race each day of the "hidden passes" meeting, and the classes will be for 2:15, 2:10, 2:05, and free-for-all side-saddle.

Each purse will be worth \$200, and every one of the five races will be decided upon the "novelty" plan of three heats to the race. Hoppies will not be barred, and each horse must carry at least 140 pounds.

Each quarter mile will be a race in itself. The horse that leads at the first quarter pole will be paid \$12.50. The one that is ahead at the half is to drive \$25. The leader at the three-quarters will receive \$50, and the one that finishes the mile in front will take down \$75.

ALBERTA CATTLE BREEDERS.

Annual Meeting Held This Week—Will Hold Next Year in Banff Next Year—Compulsory Dipping.

The annual meeting of the Alberta Cattle Breeders' Association was held in Calgary on Wednesday. Over one hundred and fifty members were present. Mr. R. K. Bennett of Midland was elected president for 1907-08.

The secretary read his report, the seventh annual report of the association. He said that the number of breeders of pure stock in 1900 when the association was first organized could be numbered on the hands. The great difficulty that these breeders had to contend with in their endeavor to make the breeding of pure bred stock profitable was that of marketing. The annual auction sale not only solved the difficulty of disposing of the stock of the pure bred breeder, but made it as easy as possible for the residents of the western provinces to secure pure bred stock.

He also attached a statement showing the numbers of animals sold at each sale, the average price, as well as the average obtained and numbers sold of each breed. A study of this statement showed a very satisfactory advance in prices as well as in the number of animals disposed of. The increase of prices realized at the sales held in 1901, 1902, 1903 and 1904 carried with it an unfortunate feature. The average of the average price was \$50.17, at the next \$50.00, in 1903 \$50.00, and in 1904 \$50.75.

This rapid increase gave many of the breeders an inspiration to go into business on a larger scale, and they developed their business to such an extent that they could not take care of the animals properly. Many animals were raised under range conditions, and practically every year a sale was offered for sale as a bull. The necessary lesson had to be followed, and was taught in no unobtrusive manner in 1905, when over 500 animals were offered for sale, many of which would be a disgrace in a pure bred herd, and as a result the average dropped to \$49.28. At the last sale, when about the right number of animals were entered to supply the demand, the average was \$50.37, and the number sold was 170. It is not the object of this sale that this average should continue to increase. If the price goes too high it is difficult for the average farmer and rancher to obtain a change of blood, and if the price drops too low the breeder gets too little encouragement and profit on his business.

An important change has been made in connection with the sale which is now in progress, and that is the sale which allowed females to be entered had been withdrawn. The directors had felt that it would be in the interests of the breeders to confine the sale of male stock only, and if it is considered advisable, to advertise a sale of females at some other time in the year. Possibly it would be advisable to have a sale at the time of the summer fair in Calgary, or later on when the animals would be in a good condition off grass.

The treasurer's report was also read and showed receipts of \$1,073.43, and disbursements \$20,750.08. Balance on hand, \$318.41, which shows that the finances of the association are in a very satisfactory condition.

The Beef Commission.

Reference was also made to the beef commission which was appointed to inquire into the beef industry last year, and it was stated that owing to some difficulty experienced in connection with the British Columbia members of the commission, no evidence had yet been taken. It is understood, however, that they are now practically ready to commence their investigation.

The election of officers for the coming year was the next item of business and resulted as follows:

Honorary president—J. A. Turner, Calgary.

President—R. K. Bennett, Midland.

First vice-president—Jas. Sharpe, Lacombe.

Second vice-president—Jas. Wilson, Innisfail.

Bread Directors.

Short horns—John Ramsey, Piddie.

Herefords—John Parker, Lacombe.

Aberdeen Angus—L. Hutchinson, Doham.

Galloways—E. D. Adams, Millerville.

Dairy breeds—W. J. Trullius, Calgary.

General Directors.

J. L. Walters, Lacombe.

Wm. Galley, Edmonton.

O. Palmer, Lacombe.

Byron Wright, DeWinton.

T. Daly, Edmonton.

Date of the Sale.

After the election of officers the meeting was thrown open for discussion.

and the first point raised was by Mr. Theo. Talbot of Lacombe, who stated that the sale had been held about six weeks too soon, and asked to hear the views of others present on this point. The animals bought now could not be used for at least six weeks, and the keep for this time had to be deducted from the purchase price.

Mr. Peterson said that the sale had been held so early with a view of securing a larger number of buyers here. They thought that if the sale was held before seeing those members who were also grain growers would be able to sell their bulls and go back home with a clean sheet. The sale must either be held April 1 or after May 15.

Sale Too Early.

Mr. Palmer, of Lacombe, moved that the bull sale be held the last week in May. The cattle breeders feel that today's meeting was held in the interests of the horsemen. He thought that the horsemen should be cut out altogether. The work of the government officials should also be cut out. He was also doing nothing to raise the price of the bulls or yearlings. He also spoke of the accommodation at Calgary which he said was not large enough and declared that they could get a place in Lacombe which would beat the present buildings.

His criticisms were laughed at by the association, and ridiculed by another Lacombe representative.

The matter of the date of the next sale was again taken up, as during the foregoing the members had wandered from the point. Mr. J. Wilson of Innisfail, who did in order to get the view of those present on the matter he would move that the next sale be held on April 1, 1908.

The Date Chosen.

This did not touch the matter for a time, and the discussion continued in a very desultory sort of fashion, the speakers being Messrs. J. Sharpe, Geo. F. Rott, Mr. Palmer, Geo. H. Craig and A. B. Macdonald. In the end it was decided, after a discussion lasting well over an hour, that the next sale be held after the 25th of May, the exact date, the committee of the executive committee. Mr. Frean, then moved that the executive committee correspond with the committees of other western associations with a view to arranging dates for sale so that the same judges can act at every show. This motion carried.

The secretary then said that Dr. Rutherford had remarked that there would likely be a convention of the Canadian National Live Stock association this year, and suggested that the Alberta Breeders' association should be in the convention and have some say in the work done.

Mr. J. A. Turner also spoke in favor of a movement of this kind, and Dr. Rutherford was asked to give the meeting a better idea of what was wanted.

Dr. Rutherford spoke of the restrictions against letting stock from other provinces be brought here and sold in this market. This association may, and very likely can get along without help, but so long as his department helped by money, etc., it is not fair to inform them that they must remove all these restrictions, and allow the breeders from the other provinces to come in and compete with them. They were beginning to move on a very narrow gauge for such a large place as Alberta.

Another Compulsory Dipping.

He also spoke of the present prevalence of mange among the cattle this year and said that he was very much afraid that they would have to order another compulsory dipping this year. Last year they had done this and they all knew the result. This year there is mange all over the country. The cattle would have to be dipped. As a departmental officer he could only offer them two things, either clean out the mange by dipping, or have a line drawn around their districts and be forbidden to ship cattle away. They realize that the west is growing very rapidly, but they must still remember that they were not the whole thing, and the government could not afford to let Manitoba and Saskatchewan suffer from the loss of trade because Alberta shipped mangy cattle.

During the past they had always insisted on lime and sulphur being used as a dip, but now they found that crude oil and soap and water were better, inasmuch as one treatment suffices, while the cattle have to be dipped twice within the space of twenty days by the lime and sulphur method. Again everything an animal touches after it has been dipped in the oil is disinfected. Care, hence, telephone posts and all, and the animal itself was immune from reinfection for about 60 days after being dipped. There is also less dan-

ger of animals dying by the new system. It was his present intention to put along with the compulsory order a notice saying that both the lime and sulphur and the crude oil would be good dips, but that no patent dips would be allowed. In conclusion, he asked all present for their hearty cooperation and support in this matter.

Mr. Palmer Apologizes.

Mr. Palmer then rose and said that he was sorry he had criticized the government men too harshly. He had not meant to do so, and only wanted a good discussion of the question.

Mr. Sharp then moved and Mr. Trullius seconded that the Alberta Breeders' Association affiliate with the National Canadian Stock Breeders' Association, which was carried unanimously.

SPRUCE GROVE.

Auctioneer Brox and his clerk, Suberland, has been kept busy conducting auction sales of late.

His preparation to change hands in this locality recently. Several farmers have sold out and are going to Edmonton, presumably retiring—possibly for the purpose of engaging in some line of business at the capital. Their places here are being filled by recent arrivals, who, by the way, are appearing in noticeable numbers.

On Thursday last the new village of Spruce Grove made its appearance and will for at least the first year be under the guiding hand of His Honor, Mayor John Wollaston, Esq. Great ground may now be looked for. This village is situated about midway from Stony Plain to the capital city. It is the oldest and most favorably known farming district in Central Alberta, farming having been carried on continuously for the past twenty-five years.

Settlers have for years been looking for railway extension to this point, in the hope that such would relieve the market situation. Well, we have the railway now, minus the relief. Eleventh hour and at Stony Plain are either full or nearly full most of the winter, which has had a depressing effect upon grain prices. With very great difficulty a car has on rare occasions been obtained for individual farmers over, nor have the elevator people served a great deal better. The train service on the C.N.R. is not as good as it might be.

The Canadian Society of Equity at this place have built a new hall, and have thereby filled a long felt want. It adjoins Mr. Christman's store, and good meetings may now be looked for. H. J. Christman has sold out his mercantile interests here to Enoch & Metcalf, of this place, who take possession on Monday. Mr. Christman himself will move to the capital, where he intends going into the poultry business.

The Rev. Mr. Baile, Presbyterian minister, goes to Edmonton next week. Mrs. McLean and daughter, also and niece respectively of Mrs. A. McPherson, are among the most recent arrivals from Ontario. They are visiting with Mrs. They are a little surprised at the quantity of snow still remaining here.

A large number of telephone poles are now lying at the railway sidings here and at Stony Plain, awaiting shipment east, as well as a considerable quantity of piling timber, all of which are for the use of the Public Works Department of the Alberta Government. Telephone poles are also being distributed along the line of new road from Stony Plain to Wabamun, which line, it is expected, will be constructed this season and form the western trunk line of the provincial telephone system.

The settlers are looking forward expectantly to considerable extensions in road construction westward, as well as to some improvements upon some of the main roads already partly constructed. The amount of money being spent by the province for the above purposes cannot help but be of immense benefit to the settlers of Stony Plain.

Some threshing still remains to be done, and in all likelihood will be done until after seeding. The area to be seeded to grain crops this season will far exceed that of any previous season. If the necessary help can be obtained.

The live stock have wintered well generally, there being plenty of fodder as well as grain. On Wednesday evening, March 28th, a large concert under the auspices of the Young People's Society of Spruce Grove was given in the church at Spruce Grove, the proceeds of which, we understand, goes to form the nucleus of an organ fund for the church at this place. The concert was a splendid success from every point of view, the church being well

filled, and the proceeds amounting to some twenty-five dollars. The talent, which was all local, was remarkably good, in fact the equal of that generally shown at entertainments of a much more pretentious nature. Another entertainment of a similar nature is already under consideration for the not very distant future.

PAINTERS NOT ON STRIKE.

Mr. Geo. Peck, business agent of the Painters' union today stated that there was no strike on among the painters of the city, and that there is no stop of the painting business in the city. A great many of the journeymen painters are at work. Those that are out have been mostly employed by the master painters who belong to the Builders' exchange.

The painters further complain that the terms proposed by the master builders' association that the rate be forty-two and a half cents per hour, which is only an advance of eleven cents over last year's wages, a small increase compared with the other trades in this city. The demands of the painters have in the hands of the contractors since the first of the year, and they have had ample time to consider the proposition.

Eleven employed painters have availed across the river from Edmonton as hour as follows: C. C. Johnston Co., John Macdonald, B. T. Hallegren, D. S. O'Hanlon, E. Locke, McGregor & Morrison, A. A. Mathews, Mar. Brown, G. H. Spinks, A. Co., K. A. Hladford, A. J. Phillips & A. Bon.

MOTH AN EASY WINNER.

The wrestling bout at the opera house last night attracted a fair crowd, but the sport was not as keen as expected. Chas. Mott had plenty of time to spare on his job of downing his three opponents once each in less than five minutes.

Setler was the first to grapple with Mott; but if only took the big American five minutes to score a fall. Joe Fils made the best showing of the night. It took Mott less than eight minutes to get the decision over him. Joe Mott required six minutes to conquer. Mott is in rare form now, and if Jack Downs happens to strike the city during the month, and a match can be arranged, the people of Edmonton will have a chance to see some high class wrestling.

LET GOVERNMENT CONTROL BUTCHER SHOP.

Cowley Correspondent Lutes Acknowledges...at Proposed Increased Price of Beef.

To the Editor of The Bulletin.

Sir—Can the report be true that the price of beef is to be raised by the butchers, and in some cases stand the price of beef? Will public patience stand this impudent extortion? The price of cattle may be higher this year, but it has not gone up yet, as the time for sales has not come. But the price of beef never dropped one cent when the price of cattle fell. Why then should it be raised if the price of cattle has not risen again? Let our government protect the public by opening its own butcher shops, as is done in New Zealand. By thus saving down the expenses of living, the government will enable us better government for its only—Yours faithfully, ALBERTAN.

BASEBALL

Winnipeg Maroons have leased the Haystack grounds for another four years.

There is talk of another international league. This time it is to be composed of teams from the inland empire and southeastern British Columbia. Roseland and Nelson would be the Canadian cities with a possibility of Grand Forks being included, while Northport, Colville and possibly Maroon would be on the American side of the line.

The fact that all the big league clubs take southern trips now and insist on the players reporting early cuts off some of the nice jobs the players had in days past coaching college clubs.

Randall, the young Northern leaguer, has done the best batting for the Chicago Nationals in the six games played to date.

Rohs, who won the world's championship, can't get his batting eye this spring, and has done no hitting thus far.

Christy Mathewson's work has been closely watched by sports men and they all agree that Matty is in as fine condition as he ever showed in his life.

Winnipeg will carry twelve men during the season. At the annual meeting of the league at Duluth recently it was decided that all the clubs should cut down to this number in order not to exceed the salary limit of \$1,000. The different teams will be called upon to yield the six by the first of June.

Clarence Duggan, who was with Calgary a couple of years ago, writes Manager Fidler, asking if there is an opening on the Calgary nine for this year. He had no offer from Park Wilson, to play in the Vancouver team, but as he puts it he "slipped him the lemon."

"Doc" Voss of Chicago has at least come to terms with Winnipeg. He was with the Maroons last year as change catcher and general utility man.

Winnipeg will have twenty-five players report at Minneapolis. Seven of them will be needed out during training games, and six more will be out before June 1st.

Winnipeg will round off its spring training with games with Calgary on May 7 and 8, and Lethbridge on May 13 and 14. Their first league engagement is with Houghton on May 18.

Two of the Winnipeg players are already in the game. First baseman Luders is with Milwaukee and Outfielder "Chesty" Cox with Omaha.

Moore Baxter, who was with the Calgary team two years ago, is now being tried out at first base with the St. Louis Cardinals, and seems to be making good, as in a game against the Washingtons he cracked out a three bagger that won the game and accepted all of his twelve chances.

Copper Country fans can hardly expect even second class ball this year with the team salary limit fixed at \$1,000 a month.

The Calgary rooters are all to the merry over the report that second baseman O'Brien in a corner lot game last week had three hits with four times at bat.

Calgary Lands Some More.

The Calgary Ball club received the contract today of John Keough, who will play third base this season for Calgary. Keough comes from Pittsburgh, Mass., and played with the team of that city last year; he had a batting average of .911 and fielded 918 in 110 games. He is fast on his feet and can whip them over in time style; he was highly recommended by Palmy Deonovos, of Brooklyn. This completes the infield for Calgary, with Thorne 1st, O'Brien 2nd, Pinkerton 3rd, Keough 3rd, and the other teams in this league will certainly have to go some to beat this same infield.

Leon Goucher, another south-paw artist, has been added to the pitching staff of the Calgary team, and according to the press notices of the eastern papers he is a cracker-jack. He has pitched against all the big league teams and has more than held his own against them. In a game last season he struck out 9 of the Boston American league team and let them down with five hits; he should prove a star in this league.

BUILDING THE G. T. P. BRIDGE OVER THE SASKATCHEWAN

It is only the raw edges of a great work that can be seen now at Clover Bar, where the massive G. T. P. bridge across the Saskatchewan is under construction.

But that it is a great work even the veriest novice at bridge-building will realize on visiting it. The long low shapes of green lumber are imposing when seen from a distance, and the evidences of the long winter's work are not at once apparent, the pile-driver and excavator with all their complement of machinery having been removed from the river until the ice goes out.

But a revelation comes after a few minutes of close survey of the works. Beelives of men on the hillside are at work excavating for the pedestals that will uphold the steel superstructure, and what seemed at first corals on the ice resolve themselves into a chain of projected piers, 90 feet long by 45 feet wide.

What Has Been Accomplished. The severest winter on record in Alberta's history has not deterred the hardy bridge-builders, and all winter long the frozen Saskatchewan has been resounded by the clanking of the "orange-peel bucket" excavator.

With this result—that after through the ice and 27 feet below low-water level the massive piles have been sunk for the four coffer-dams, where the piers of concrete will rise next summer, 100 feet in height. In addition to this the excavation for one pier and several pedestals is complete, and the concrete filling of the end pier is made to a depth of over 20 feet.

To Protect Piers From Ice. Each of the coffer-dams is protected by a V-shaped breakwater of piles whose bruised, splintered heads tell a story of the tremendous impact of the steel hammer. They are sunk deep and stand high above the ice, that even should the Saskatchewan break up in ugly mood this spring it is believed the piers will remain unharmed by the ice-floes.

A Big Gang of Men. Over 200 men are at work in the camp, not including the gangs at the gravel and sand pits situated a couple of miles away. Eighty horses, sleek, powerful, handsome animals, are used in the various branches of work, and from supervising engineer down to chore-boys the camp is untypically proud of his.

On-Motoring on the Saskatchewan. Altogether the G.T.P. bridge camp thickens, neatly developed, is a sight worth going to see. And the going has possibilities in itself, when one spins down the frozen river in a big motor-car, trundled over from its stall in response to the cur-

osity of the Bulletin's representative concerning bridge-building.

A memorable ride that! For it was at first half a slide down the black mud of Mill Hill, with its narrow road and many windings on the cliff side; then a scamp down the icy road in the middle of the Saskatchewan. And after luncheon at the camp the big red motor car whirled back at a breathless rate over the road which was now hidden beneath several inches of water.

The water splashed before the car like a rainstorm, and churned in its wake like a turbulent mountain stream.

This was a motoring trip beyond words of description—one to which the white Saskatchewan's banks with their marshalled forces of bare poplar and cottonwood lent a highly picturesque setting. Its element of incongruity had the charm even to move staid Galtians and quiet country half-breeds to smiles.

It was fine enough and unique enough for a place in the programme of a racy tour on a royal tour.

Plan of the Camp. On the south side of the river, where the work is mainly being carried on now, the camp is built to advantage for the accommodation of over two hundred men. There are two bunk-houses, of which one is for Galtians.

Another is in course of erection, while to the west and a number of individual sheds and tents have been raised by men who prefer to be masters of their own abodes however small.

Even here there is evidence of the cosmopolitan nature of the camp's population. A man from Kansas has felled trees, and built a tiny log cabin as settlers do in his native state. An Englishman captured the top of a prairie schooner for his lodge. The Scotchman's tent has a shawl of books and a business-like table with sketches strewn about, indicative of the Scotchman's tastes.

A small frame building within the camp's limits is used for a reading-room, and occasionally as a church. A quiet old armistice, whose keys still give out harmony, a Bible on the desk, and a rack of magazines and papers give color and life to the bare building and its rows of crude benches.

The Day's Work. The coffer-dams which mark the first steps toward the erection of massive concrete piers, are enclosed with a frame of sheet piling in three feet, "forms" have been built of 16x16 timber in the shape of the coffer-dams, neatly dovetailed, and sheet piling will be fitted with

mud, and as soon as the ice breaks the water within the forms will be pumped out by centrifugal pumps, leaving it dry and ready for the concrete filling.

Up on the banks at the cement house, where the concrete is being prepared, is one of the most interesting phases of this immense work undertaken by the Mac-Braze Company. There two small engines puffing mightily, turn as many mixers, into which alternately sand, gravel and cement are dumped—only to turn out in less than two minutes a quantity of excellent concrete.

An Industrial Drill.

To one of these mixers of cubic shape, which revolves unceasingly in the cog-wheel in which it is set, men come with soldierly precision every two minutes, dumping neatly into the hopper alternate barrow-loads of material. They race lightly back to their posts, hurriedly fill the barrows and stand at attention until the mixer discharges its contents into a wooden spoon, when they again race to the hopper and empty their barrows. It is an interesting bit of industrial drill typical of an age when civil wars are being fought in great financial houses rather than on battlefields.

Outside the cement-house that output of the mixer is dumped into a dump-cart, which has been specially designed by Mr. Dunlop, the foreman of the works. The car is a compromise between the ordinary dump-car for concrete and that for coal, and does its work of conveying concrete to the land-pier, most effectively.

The Staff and Foreman.

Its designer, Jack Dunlop, a strong, rugged Scotchman, who looks if he had stepped out of one of Ralph Connor's books, is the controlling genius of the camp. It is not always an easy matter to control camps, but Jack Dunlop has been controlling camps and gangs of men for years and, so the men say, has a "wonderful way with him"; quiet-voiced, steady, resolute—a strong personality.

With his hat luncheon there gathers in the Engineers' mess-room a dozen or so of bronzed, capable men who are doing, each in their own way, a share of the work that is to transform one portion of the "western wilderness" of tomorrow.

It is pioneering work, but the men's quarters are hygienic. The water-supply of the camp is obtained from a spring high up on the hillside, and the tables in the various mess-rooms were laden with wholesome and invigorating fare.

Altogether the lot of a bridge-builder seems a fairly desirable one at this period of Canada's development.

Budapest, April 5.—According to statements made in well informed circles, Austria and Hungary have agreed to patch up their quarrel and renew the peace agreement until 1917.

NEW TOWN IN MORINVILLE COAL REGION.

The Alberta Coal Mining Co. are placing a new townsite upon the market. The new town will be located on section 23-25-26 in the heart of the Morinville coalfields. The name of the new town is McKenna. It is understood that no kind of business will be conducted except coal mining by the Alberta Coal Mining Co. Ltd., and that every opportunity possible will be given business men to engage in storekeeping, hotel keeping and any other business without competition with the coal company. Special opportunities will be given to laborers and coal miners to build and own their own homes.

FOOTBALL LEAGUE FORMED.

Four clubs were represented at the meeting last night to organize a city football league, and the association was organized with the following officers:

Hon. president—W. Short.
President—Mayor Griesbach.
Secretary—treasurer—J. Short.
The Western Association football rules will govern, and the organization will be officially known as the Edmonton city football league.

Messrs. Hopkins, Ewing and Dodds were appointed a committee to arrange the season's schedule of games, and they will also manage the business affairs of the league for 1907. The teams entering the league are All Saints', St. Paul's, Celticians and the city eleven. All the teams claim to have enlisted a fine lot of players, and the admirers of football in the city are assured a great season's sport this year.

NOVA SCOTIA MEN PURCHASE.

Lot 46, block 2, on Third street, north of Jasper, adjoining the property recently purchased by P. Burns & Co., has been bought by P. B. Hummer, Truro, N.S., and James W. Day, of the N.S. Realty and Investment Co., for a sum in the vicinity of \$15,000.

FROM DAY TO DAY

EASTER RECEPTION AT GOVERNMENT HOUSE.

Government House presented an animated scene Thursday night as the numerous guests at this Easter reception passed to and fro through the handsome apartments, while music from an orchestra stationed in the upper hallway supplied a pleasing accompaniment to the mingled tones of conversation and laughter.

His Honor the Lieutenant Governor and Mrs. Bulger received their guests in the white and green drawing room, extending to each the charming welcome whose warmth of hospitality makes itself felt to stranger and habitué alike. Mr. Babbitt presented the guests to the Governor.

In the dining room, where supper clothed with white chignon scarf, was served about eleven o'clock, the table was, as usual at Government House, exquisite in the design and color of its decorations. A Venetian glass vase of superb white Easter lilies crowned the table, upon which blue ribbons of primrose yellow white chignon silk with rich Irish lace satin crossed diagonally. A centre piece and doliery of very beautiful lilies further enhanced the dainty table, which was lit by primrose-shaded candleabra.

A number of very handsome gowns were worn. Mrs. Bulger wore a rich ivory white gown of broad satin with sequined chignon scarf; pearl ornaments.

Mrs. Thibodeau was beautifully gowned in ivory white satin with delicate white lace trimmings. Mrs. Auguste Noel was strikingly hand-some in a Parisian gown of rich white satin with bertha of rare lace and lovely corsage bouquet of Parma violets. Mrs. Hamilton wore a pretty gown of light blue silk with a shimmering overdress of blue silk gauze; diamonds and pearl ornaments.

Dr. Ellis Symp, rich black silk with white organdie gown with touches of velvet gown with sequined chignon light blue; diamonds and coronet of silver lures.

Mrs. Charlesworth, daintily gowned of Dresden silk, with white chignon trimming. Mrs. Corbally, Alanson, Mrs. Louis Arsenault, Miss K. Burgess, Miss Blanche Brown, Miss M. A. E. Butler, Miss Ethel Boyle, Miss Eva Boyle, Mr. and Mrs. Vernon Barford, Mr. and Mrs. W. F. Black, Mr. Bert Bishop, Mr. O. M. Dr. and Mrs. Fargham, Mr. A. B. T. F. Jackson, rich black and E. Farmer, Mr. and Mrs. A. Fuller.

FLOATING STONE LAKE.

Floating Stone Lake, April 4.—Mr. Floating Stone Lake country was slow settling up, but now that the winter is over settlers are coming in, taking up homesteads, getting out houses, logs and making preparations for spring work. Five claims have been taken up in the last week.

Mr. and Mrs. Charles Jackson were up from Island Lake visiting Mrs. Jackson's parents, Thursday and Friday.

Mrs. C. N. Johnston will stay with Mrs. Good this summer. Mr. Good is going to Alaska the first of April. Mr. and Mrs. P. Tomkins and Miss Clark were visiting friends at Floating Stone last week.

Mrs. Chappell's father and sister, of Netley, are in Floating Stone on a visit.

James Sinclair's youngest son, who has been quite ill of late, is now convalescing.

Miss Adair McCullough has been seriously ill the past week with inflammatory rheumatism. She is now improving.

Charlie Greenstreet is busy hauling in goods for his store.

Vern Lively has gone to Vegreville for lumber for Mr. Haywood.

Any person looking for a homestead and not knowing where to find one go to Floating Stone Lake, twenty miles north of Red Lake, and get upon a good homestead and are sure to find one.

Mr. Clark, who has a store twelve miles from Red Lake, was arrested and fined two hundred dollars for selling liquor to the Indians.

PORT BASKATCHEWAN.

Port Baskatchewan, April 4.—Mr. H. Todd, of the Merchants' Bank of Westsask, and formerly of this place, spent a couple of days here this week.

Mr. A. T. Fraser and his sister spent a few days in the Port this week, renewing old acquaintances.

Mr. Fraser has severed his connection with the Canada Forestry Company, of Exshaw, which he has been with since leaving here last summer, and has gone to his ranch near Baskatchewan.

On Friday evening Baskatchewan's cantata, "The Crucifixion," was given in St. George's Church by the choir. There was a good attendance, and a most pleasant evening was spent. The singing of the choir was unusually good. A collection was taken up, amounting to over \$17, which will be donated to the hospital fund.

Quite a number of our citizens drove up to Edmonton on Saturday to spend Easter at the capital. Amongst the number were Miss Goss, Miss Walker and Miss Burk.

The two young daughters of Mr. and Mrs. E. Himmson, who have been ill with typhoid fever for several weeks, are now showing signs of improvement.

WHITE WHALE LAKE.

White Whale Lake, April 4.—Mrs. Dr. Carthen is undergoing an operation for catarrhal trouble.

Miss M. Legge has been secured as teacher of Wabamun, S.D.

Mr. M. L. Hoffman, Alberta's poet, has for some time been conducting the Wabamun school.

Mr. Aug. Brabant, merchant, Wabamun, with characteristic vigor is rebuilding his store and dwelling. Fires do not daunt him.

White's new mill will get under way some time soon.

Mr. Lent, Presbyterian missionary to lumbermen and settlers, reports 1,000 miles travelled, 100 gospel services held, and 1,200 people addressed since January 1st.

Canadian Northern Railway grading

work is progressing in tp. 22, r. 2, w. 5th. Grand Trunk Pacific survey for final location runs along C.N.R. line in over settlers are coming in, taking up homesteads, getting out houses, logs and making preparations for spring work. Five claims have been taken up in the last week.

Mr. and Mrs. Charles Jackson were up from Island Lake visiting Mrs. Jackson's parents, Thursday and Friday.

FOR SALE

100,000 Acres of Chain Alberta, Lands from \$9.00 to \$12.00 per acre, suitable for Colonization, their being HOMESTEADS open for sale in the block.

Oysters are served in every style and are fresh every day. Fresh Lobsters and Shrimps, Spring Chickens, Broilers.

Alberta Cafe.

"BIG TEEPEE" BECOMES DEPARTMENT STORE.

Medicine Hat, April 4.—A highly important business change has been effected here whereby the old Stewart and Tweed store becomes the present department of a company capitalized at \$75,000.

This business began in a tent 25 years ago and has branched out to stores at Blair, Drummond, Lehigh, and Donald, B.C. In early days the establishment was across offices, bank, post office and weather bureau, as well as general store. Then the wooden building that succeeded the

tent was known as "Big Teepee" to everyone between Fife's-Bones and the Rockies.

RENNIE'S MASQUERADE.

The final masquerade of the season at Rennie's Academy was held last night. The attendance was large, and the costumes all strikingly handsome.

The prize-winners were:
Best-dressed gentleman—Mr. de Bria, as Mimosas Brava.
Best-dressed lady—Miss McDonald, as a girl.
Ladies' comic—Mrs. Malrose, Dutch girl.
Gents' comic—Chas. Collins, hob.

ANNUAL FAIR.

The annual meeting of the Alberta Fair association was held in Calgary on Tuesday of this week. H. E. Jenkins, of Pincher Creek, occupied the chair, and J. F. Freeman, of Lethbridge, looked after the secretary's end of the affair.

The following delegates were present: W. H. Fairhead, Lethbridge; Patrick Turner, Wetaskiwin; R. B. Pincher Creek; Oswald Palmer, Lacombe; A. E. Humphries, Lethbridge; Adam Arney, Nanton; W. O. Hutton, Lethbridge; Colin Angus, Macleod; A. Wallace, High River; E. Hinkley, Ponoka; P. H. Brown, Red Deer; Geo. Rand, Olds; Gus Doo, Fort Saskatchewan; E. J. Freeman, Invermay; Geo. H. Budd, Raymond; H. E. Jenkins, Pincher Creek; Benj. Meakin, Grangh; T. Daly, Edmonton; Kave MacLean, Lethbridge; P. G. Connell, Okotoks; E. A. Hayes, Okotoks.

The report of the special prize list committee was presented and fully discussed. It was pointed out that where the classes or prize list did not meet the requirements of any particular local society it was suggested that new classes or strike out from the proposed prize lists any of the classes not needed in that particular show.

Experimental plots at Fair. H. R. Craig, Secy. of Fair and Ex-Positor, addressed the meeting. He pointed out that the weights of horses in the various classes might be changed. Carriage races and roadsters in one class were rather objectionable he considered, owing to the difficulties of distinguishing fairly. He thought these two classes should be separated into two classes. Herd classes he didn't think necessary for small shows.

New fairs should not be started in small towns where they have no right in raising the necessary \$500.00 for miles.

Mr. Craig pointed out the fact that there was a tendency to make the agricultural fair a side issue to the turf part of the show. He also mentioned a very important move he intended making this season, subject to the approval of the Agricultural Department, that is the commencement of an experimental plot of one or two acres in each of the large fair grounds, where grains, grasses and shrubs could be experimented in.

These plots would be fenced with the question of expense entered largely into the proposition, he thought local ploughing matches should help in part. He would suggest that the winners of each ploughing match should compete provincially in the cultivation of their plot for prizes, thus the double object could be served, a local competition for the ploughing and a provincial competition for the cultivation part.

Mr. Craig suggested that a good way would be to have the judging rings on the ground in front of the grand stand. Another important matter that should be stipulated was the size of the show rings.

Mr. Craig also brought up the matter of placing prizes on the names and numbers of the classes that are to be judged.

In answer to a question, Mr. Craig stated that the manufacturing end was a very important industry and it should be left to each local agricultural society to take up the matter of offering prizes for manufacturers products.

A committee consisting of Messrs. Humphrey, Rande, Palmer, Mitchell and Freeman was appointed to prepare the circulars for the fairs in Alberta during 1907.

The secretary was instructed to write to different fairs in B. C. giving the dates of the fairs so that exhibitors of fruits can be arranged for. The special committee then reported that the dates for the fairs had been arranged as follows: Edmonton, July 1, 2, 3, 4. Invermay, July 9, 10, 11, 12. Okotoks, July 16, 17. High River, July 18, 19. Red Deer, July 20, 21. Pincher Creek, July 22. Fort Saskatchewan, July 28. Macleod, July 31, August 1, 2. Lethbridge, August 7, 8. Leduc, August 8, 9. Vermilion, September, 10, 11. Vegreville, September, 11, 12. Didsbury, September 13. Olds, September 14, 17. Mayrath, September 19, 20. Raymond, September 24, 25. Cardston, September 26, 27. Medicine Hat, October 1, 2. Lacombe, October 3, 4. Ponoka, October 5, 6. Wetaskiwin, October 8, 9. Invermay, October 10, 11. Nanton, October 13. Pincher Creek, October 15. The report was adopted.

Electors at Officers.

The treasurer's report for the year ending April 6, 1907, was read and adopted.

The election of officers for the year was held and the results were as follows: President, H. E. Jenkins, Pincher Creek; Vice-President, H. A. Wallace, High River; Executive Committee, T. Daly, Edmonton; Treasurer, Lacombe; Geo. H. Budd, Olds; W. H. Fairhead, Lethbridge; E. J. Freeman, Invermay; R. B. Pincher Creek; Oswald Palmer, Lacombe; A. E. Humphries, Lethbridge; Adam Arney, Nanton; W. O. Hutton, Lethbridge; Colin Angus, Macleod; A. Wallace, High River; E. Hinkley, Ponoka; P. H. Brown, Red Deer; Geo. Rand, Olds; Gus Doo, Fort Saskatchewan; E. J. Freeman, Invermay; Geo. H. Budd, Raymond; H. E. Jenkins, Pincher Creek; Benj. Meakin, Grangh; T. Daly, Edmonton; Kave MacLean, Lethbridge; P. G. Connell, Okotoks; E. A. Hayes, Okotoks.

At the close of the annual meeting the newly appointed executive committee met and appointed Ed. J. Freeman, of Invermay, secretary-treasurer of the association for the ensuing year.

WILL PUGBLY BE CANDIDATE.

Associated Press Dispatch. St. John, April 4.—There is a rumour in circulation asking Puggly to become a candidate for the vacant seat for St. John City and County in House of Commons.

A convention of Liberals will be held. Mayor Sears announced to-day that he intended running as Liberal, no matter who else did.

STRATHCONA

PHENOMENAL INCREASES.

Large instances of the big increase in the value of Strathcona real estate are seen in the sale of several large properties during the past few days.

On Wednesday the Royal Hotel changed hands for a sum in the vicinity of \$35,000. Five years ago this same building, as it now stands, was sold by the Colonial Trust Company, under a mortgage, for \$5,000, an increase of one thousand per cent. in five years' time.

On Thursday A. M. Fuller & Co. put through a sale of the Mallon property, situated two and a half miles from the post office, at the rate of \$100 an acre, or \$20,000 for the entire 1700 of 300 acres. The purchase was made by a syndicate of North British investors.

Eight years ago a prominent real estate man of Strathcona turned down an offer for the purchase of \$10,000, for which sum it was offered him.

SURVEY OF CITY PARK.—The survey of the new city park on the river banks, north of Strathcona, will be completed in a few days by Mr. Saunders, C.E., Edmonton, to whom the task has been entrusted. The C. and E. Townsite Company, who are selling the land to the city, have indicated their desire to retain a small triangular piece enclosed by Ritchie's Grade, Niblock street and Saskatchewan avenue. This land, Mayor Mills says, would not be of much benefit to the city as part of the city park.

LOCALS.—Johnston & Armstrong report the sale of lots 3 and 4 block 96, Whyte avenue east for \$5,500 cash. This property belonged to John Albert, and was bought a year ago for about two thousand dollars. The purchase of lots 3 and 4 block 96, Whyte avenue east for \$5,500 cash. This property belonged to John Albert, and was bought a year ago for about two thousand dollars.

A. Hobbs, of the firm of Riddell & Hobbs, Calgary, horsemen, arrived from the south yesterday.

Fat Burke, of Chipman, is in the city for a couple of days. He arrived yesterday.

Mr. and Mrs. H. G. Stanton, of Toronto, are Edmonton visitors' this week.

Mr. W. T. Ashe, who has been seriously ill at the public hospital with pneumonia and typhoid, is very much improved.

C. Collard, A. Wilson and F. F. Wood are here from Mundare, and will remain in the city for a few days.

J. B. Wilford, of Dewberry, England, arrived in Edmonton on Friday, and will spend some time visiting his friend, G. Dun Pickering, at Bon Accord.

C. St. Louis, the well known Montreal cigar manufacturer, is paying Edmonton his annual visit this week. He arrived on Friday and is a guest at the Cecil.

Mr. and Mrs. E. C. Rowe and Mr. and Mrs. A. Mack, of Oklahoma City, Okla., who are taking a trip through Alberta and British Columbia, are in the city at present at the Cecil.

EDMONTON POST OFFICE.—Post will be on this Fall-Work Began Yesterday.

An important public work was commenced yesterday in this city when Mr. Charles May, the well known contractor, set a gang of men to work to excavate the basement for Edmonton's \$200,000 post office.

By the terms of his contract Mr. May has two years in which to finish the building. However, it is Mr. May's intention to push the work with all possible speed and he intends to have the roof on this fall. He recently placed an order for 100,000 worth of steel with the Dominion Bridge company, through their agents, Messrs. Gorman, Glancy & Goringham. The building will be 150 and three stories high, built of fine cut stone.

NEW MAYOR FOR EDMONTON.—Residential in the Bulletin.

Guelph, Ont., April 5.—Mrs. Annie C. Mitchell, graduate of Guelph general hospital, has been appointed superintendent of the isolation hospital at Edmonton.

SIG SHOWSTOPS IN MONTREAL.—Montreal, April 5.—The heavy winter in the lap of gale spring was forcibly demonstrated to Montrealers today, when they awoke to find themselves in the midst of a snowstorm. Raincoats set in during the night, during the progress of which the temperature dropped to a sufficient extent to change the rain into snow. Spring promises to be one of the most backward in several years.

SOCIAL.—Mrs. George McLeod will hold her post-nuptial reception at her new home, 208 Eighth street, on Tuesday afternoon, April 9th.

Mrs. Johnstone Walker and Miss Walker leave next week for a lengthy trip to Scotland.

Mr. and Mrs. John I. Mills leave shortly for a trip to the coast.

John Sticks, corner Mackay and 10th street, will not return again this month.

Senator Roy and Mrs. Roy leave for

Edmonton about April 9th. They will be accompanied by Miss Rhoda Hamilton, McCarthy-Ottawa Free Press.

An interesting engagement just announced is that of Miss Laura Toller, second daughter of Lieutenant Colonel and Mrs. Toller, of Ottawa, to Mr. Fred H. Markey, E.C., of Montreal. The marriage will take place early in September.

A fashionable wedding, arranged to take place in June, will be that of Miss Dora Oliver, daughter of the Minister of the Interior and Mrs. Oliver, to Mr. Anderson, of Edmonton. Another social event of importance taking place the same month will be the marriage of Miss Agnes Davis, daughter of Mr. and Mrs. M. P. Davis, to Mr. Arthur Brophy—Ottawa Journal.

Mrs. Joseph Whitehead entertained this week at an enjoyable party of progressive five hundred. Two of the players carried off very desirable prizes. The guests included Dr. and Mrs. Morris, Mr. and Mrs. Manson, Mr. and Mrs. Marshall, Mr. and Mrs. St. George Gray, Miss Fowles, Mr. and Mrs. John I. Mills, Dr. and Mrs. Whitehead, Mr. Ross Palmer and Mr. Molton.

Miss Theresa Foxwell, who is visiting Mrs. T. H. Whitehead, and who was the guest of honor at a bright Easter tea given by Mrs. Manson last

Saturday, was the occasion of another tea given this week by Mrs. Whitehead. The guests included Mrs. John McDougall, Mrs. Scott, Mrs. Fisher, Mrs. Dunlop, Mrs. Marshall, Mrs. Robertson, Mrs. Ramsay, Mrs. Johnson, Mrs. Bruce, Mrs. Wills, Miss Allen, McDougall and Miss Wainwright. The tea was most enjoyable. At midnight an enjoyable supper was served. The dance was voted one of the most delightful of the season.

Mrs. Henry Robertson, Seventh street, was the hostess of a very enjoyable Easter tea given on Thursday. Mrs. Robertson, who was assisted in receiving by her sister-in-law, Mrs. W. H. Cooper, was charmingly attired in a gown of cream liberty silk. The drawing-room was beautifully decorated with Easter lilies and white roses, as was the table at which the honors were done by Mrs. Archibald and Mrs. Pann. Mr. Robert Mays serving the tea. The tea table was covered with a full cut-glass was holding Easter lilies, while the centerpiece of soft green silk held other lilies half concealed in its folds. White roses and similar completed an artistic color design of green and white. A large number of guests awaited themselves of the delightful hospitality of their hostess.

A bright little dance was given at Bunt's Academy on Friday evening by Mr. Harry Halliwell, Mr.

Bocher and Mr. Oedville in honor of a group of charming young ladies from the East who are visiting in Edmonton—Miss Hildesheim, Miss Gertrude Hildesheim, Miss Brunton, Miss Woods and Miss Benson. Music was supplied by Harper's orchestra and was both new and attractive. At midnight an enjoyable supper was served. The dance was voted one of the most delightful of the season.

WANTED—Situation as lady book-keeper; good knowledge of stenography; excellent testimonials. Apply D. Box 44, Macberville, Alta.

FOR SALE—Four roomed house and lot on Picard street. Apply XYZ, Box 288.

Branches and Agencies at all principal points in Canada. Also in London, England; New York, Chicago and Spokane. And Newfoundland.

Traveler's Circular Letters of Credit and Commercial Credit issued for use in all parts of the world.

Collections made on favorable terms. Drafts and all kinds of bills in the United States, Europe and Canada, and in Hong Kong.

Interest allowed on deposits at current rates from date of deposit.
C. PARDEE, Manager, Edmonton Branch

Harnessing Nature's Resources

IS THE FOUNDATION OF THE

World's Largest Fortunes

It Makes the Poor Man of Today the Millionaire of Tomorrow

Gold, Coal, Iron are but a small part of the riches nature has given us. Nature has been generous, greater treasures than have yet been produced are being discovered daily. Every new discovery of a staple commercial product, when taken advantage of and developed, is the foundation of a great fortune.

The oil found near Edmonton, Alberta, has an asphalt base, and is of heavy specific gravity. It is strictly a fuel oil and needs no expensive refining, as it is ready for the market as it comes from the ground. The Atchison, Topeka and Santa Fe and the Southern Pacific Railroad systems use it exclusively as fuel in their engines; hundreds of steamships and factories use it, and thousands of families use it for heating their homes: 3 1/2 barrels are equal to one ton of coal.

The railroads operating lines in and out of Edmonton haul coal for hundreds of miles at great expense. Oil would reduce their running expenses thousands of dollars per month.

ASPHALT FOR STREET PAVING.
The oil sand which is found 18 feet below the surface at Egg Lake can be treated the same as the oil sands of California, and asphaltum made from it.

We have an advantage over the California Asphalt Companies in that we have the gas which can be used as fuel in treating this oil sand, and can be laid down in Edmonton for 75 per cent less than the Californian product.

THE GAS WE HAVE.

Can be used for lighting purposes, and will be very valuable when it comes to smelting the Zinc Ores that can be obtained in large quantities in the mountains west of Edmonton, also in the manufacturing of Cement and Glass.

PORTLAND CEMENT.

Portland Cement was first made in England in 1824, and in the United States at Coplay, Pa., in 1878; since then works have been established in fourteen other States.

The growth of this industry is perhaps the most marvelous thing in the industrial development of that country. This Northern Alberta of ours abounds in all the necessary clays and marl deposits for the manufacture of a high grade cement, and with the advent of oil there is no reason why this district should not become the greatest cement producing country in the western hemisphere.

For burning cement manufactured from these substances the method to be adopted would be that known as the wet process, and a very hard coal is necessary (in the absence of gas or oil) which has to be finely ground in order that it will explode easily, this necessitates expensive grinding machinery and consumes much time and labor.

We have the gas already, and all the foremost geological experts in the employ of the Dominion Government bear out our claim, that as far as geology can tell us we can get the oil too.

Oil or gas would lessen the cost of production of this valuable commodity, and further, when gas or oil is used as an all modern, rotary kiln, the product is found to be of superior quality.

Chemical analysis of Cement shows that impurities introduced by the ash of the fuel, where coal dust is used, will explode easily, this is a very much a matter of speculation, whereas, by the use of oil or gas for fuel, the strength of the product may be guaranteed by mixing the materials in their correct proportions.

THIS IS A STOCK WITH A FUTURE

We have invested our own money in it. The money that is coming in is being used to further our work, and for this purpose only. We have purchased the largest drilling outfit of machinery ever shipped into Canada. We are selling fully paid and non-assessable treasury stock at 25c. per share, par value \$1.00. We can prove every investment we have made and are anxious to do so.

INVESTIGATION COSTS NOTHING.
